

IN THE CIRCUIT COURT OF
THE TWENTIETH JUDICIAL CIRCUIT
ST. CLAIR COUNTY, ILLINOIS

LW SYSTEMS, LLC.

Plaintiff

CHRISTOPHER HUBBARD,

Defendant.

Case No. 13-L-0015

AGREED ORDER

This matter comes before the Court on the parties' request for an agreed order related to discovery. The parties appear through undersigned counsel. The Court, being fully advised in the premises, orders as follows:

1. Plaintiff alleges, and Defendant acknowledges, that the personally identifying information of Defendant's alleged co-conspirators is relevant and material to this matter and there is good cause for discovery of this information. Further, the forensic information contained on the computers of Defendant's alleged co-conspirators is relevant and material to this matter and is under imminent threat of permanent destruction.

2. Plaintiff and/or Defendant may issue subpoenas seeking the identifying information of Defendant's alleged co-conspirators. Information gathered pursuant to the subpoenas must be used in accordance with applicable law, rules of procedure, and rules of professional conduct.

3. The Internet Service Providers ("ISPs") listed in Exhibit A hereto are hereby ordered and authorized, pursuant to a lawfully issued subpoena in this case, to disclose to the parties identifying information of certain of their subscribers. This includes the true names, addresses, telephone numbers, e-mail addresses, and Media Access Control ("MAC") address for each subscriber associated with an Internet Protocol ("IP") address that is listed in a subpoena issued by Plaintiff or Defendant.

4. Any party serving an ISP with a subpoena shall also serve a copy of this Agreed Order and a copy of the Notice provided in Exhibit B hereto with the subpoena. ISPs subpoenaed

by either party shall enclose a copy of this Agreed Order and a copy of the Notice with any subscriber notice issued by the ISPs. Any such subscriber notice shall inform the subscriber that he or she must file a motion to quash or vacate the subpoena with the Clerk of the Circuit Court, St. Clair County, Illinois (10 Public Square, Belleville, Illinois 62220) within 30 days of receipt of such notice.

5. If any ISP wishes to move to challenge a subscriber identification subpoena, it shall preserve any subpoenaed information pending the resolution of any timely-filed motion.

6. If a subscriber files a motion challenging the release of his or her personal identifying information or for any other form of relief, an ISP shall withhold the identifying information associated with that specific subscriber pending the resolution of the subscriber's motion, but shall not delay in responding to the balance of the subpoena.

7. If a subscriber files a motion challenging the release of his or her personal identifying information, he or she must identify the IP address that they are associated with. ISPs may not withhold the identifying information of any individual because of a motion that does not list an IP address, nor may ISPs withhold the identifying information of any individual who submits an objection directly to the ISP but does not file a motion with this court.

8. Any motion filed with this Court must comply with the relevant rules of procedure and laws of the State of Illinois.

9. Plaintiff and Defendant understand and acknowledge that they may only use the information disclosed in response to this Agreed Order to protect and enforce their rights as set forth in the Complaint.
